

Service technician for medical technology (m/w/d)

Who we are?

In 2018, Wisap was acquired by Aohua and was a significant step for both companies. Aohua, is a leading supplier of flexible endoscopes in China and acquired Wisap, a German company specializing in the development and manufacture of medical instruments and devices in the field of minimally invasive surgery. The combination of Aohua's innovative technology and Wisap's long-standing expertise will enable the company to develop and bring to the European market high-quality and innovative endoscopes that better meet customers' needs.
